## Greek Guerillas Capture Province of Thessaly

By J. EDWARD MURRAY  
Exclusive to The Edmonton Bulletin  
Copyright, 1943, by British United Press  
LONDON, June 18.—(BUP)—German propaganda seeking a clue to Allied invasion plans shifted attention to the eastern Mediterranean today where Greek sources reported that guerillas have ignored a Nazi ultimatum to lay down their arms and have seized almost all of the province of Thessaly, in eastern Greece.

The Greek claims of new guerilla successes coincided with a German Trans-Ocean agency broadcast speculating on why British attention was being cast more and more on the eastern Mediterranean.

The dispatch quoted Swedish correspondents or Stockholm sources and added: "Everything now is pointing to a coming Balkan offensive in an attempt to conquer Crete and the Dodecanese (Italian) islands."

### IGNORE ULTIMATUM

Greek sources said that guerilla forces in Thessaly, which lies northwest of the Dodecanese invasion path to eastern Europe, had ignored a German ultimatum to lay down arms last month and the guerillas were interrupting Axis operations. For the first time, they asserted, the guerillas control the plains as well as the mountains of Thessaly.

Their grip is so strong that any person passing from one side of the province to the other must have a special permit from the guerillas, it was claimed.

The shift of Nazi attention to the eastern Mediterranean followed a series of enemy broadcasts from London previously reported yesterday's broadcast said it was more important than ever that the civilian populations should get out at once.

It was noted that similar warnings had been broadcast from London previously reported yesterday's broadcast said it was more important than ever that the civilian populations should get out at once.

First U.S. Flight Nurses Reach Edmonton

Proudly wearing the golden wings of flight nurses on their navy blue tunic fronts and the winged insignia of the U.S. Army Air Force on their shoulders, the six young American girls, shown above, have arrived here for service with the Alaskan Wing Transport Command. Four of the six are commissioned second lieutenants. The young servicewomen are finding the cool June days in Edmonton very pleasant after the hot summer of the far south. Four of the six are from Indiana. Seated are: Left, Lucille T. Reddinger, of Bluffton, Indiana, and Katherine A. Marley, Seattle. Standing, left to right, are: Miriam M. Britton, of Kokomo, Indiana, five months in service; Sara H. Ward, New Albany, Indiana, five months in the army; Mary E. Newbeck, Detroit, five months in the army, and Mildred A. Seifert, Seymour, Indiana, also five months in the army. Lt. Reddinger is in charge of the party. She has been serving as a flight nurse for two years. Lt. Newbeck was born in Walkerville, Ont., but is an American citizen. Lt. Marley is right at home in the air force as she worked as a stewardess for United Air Lines, between Vancouver and Seattle, for eight months. She has been in the air force 2½ months. The Alaskan Wing Transport Command extends from Edmonton to the Aleutians.

## Europe's People Urged to Leave Military Areas

OTTAWA, June 18.—(CP)—The CBC shortwave listening net last night reported the BBC had broadcast an appeal in several languages to the people of occupied Europe urging them to evacuate areas in which German military headquarters and factories are situated.

The BBC said those who remain in such districts expose themselves to unnecessary dangers, adding the Allied air forces will intensify their activities and bomb military objectives more violently than ever.

It was noted that similar warnings had been broadcast from London previously reported yesterday's broadcast said it was more important than ever that the civilian populations should get out at once.

## Hit Enemy Communications Allied Planes Blast Nazi Transport

By ROBERT MUSEL

Exclusive to The Edmonton Bulletin  
Copyright, 1943, by British United Press

LONDON, June 18.—(BUP)—Allied bombers blasted and strafed an airfield, railroad targets, barges and a motor torpedo boat in an offensive to disrupt Nazi communications in northern France last night while a German raider fought off a spectacular fire that partly demolished a long port facility.

A German broadcast reported that Allied aircraft over Germany last night, but gave no details.

Whirlwinds "maintained the regular delivery of bombs" on four airfields, near Amiens, the ministry said. One of the bombers, which attacked from a low level, machine-gunned hangars after dropping bombs in the middle of a runway.

Whirlwinds, Typhoons and Mosquitos teamed in attacks on railroad targets and barges. A Mosquito pilot reported that his attack left off explosions on two trains, possibly from ammunition. Similar attacks are being reported.

## Bridgehead To Victory

By L. V. Randall

"Bridgehead to Victory" is written clearly and concisely for the non-military reader. One of its chief aims is to show the difficulties the Allies face in carrying out the invasion of Europe. Mr. Randall provides in simple, non-technical language a clear picture of the coming invasion to the amateur strategist and makes "Bridgehead to Victory" an excellent guide to follow military movements once the invasion is launched.—EDITOR.

General Approach to the Subject  
The dictionary definition of the word invasion does not specify in which way or by what means an invasion is carried out. Recently, however, the word has become an slogan with a very special meaning. Invasion in that special sense means, at least in the mind of the general public today, a sea-borne attack against European territory occupied by the Axis, aimed to carry the war to Germany and there bring it to a victorious conclusion.

It can be assumed that many people have some false conceptions regarding an invasion. They visualize an enormous fleet landing hundreds of thousands of men, with the weapons, vehicles, and supplies they need, more or less at one place where a decisive battle will then be fought. We will try to show that this is a misconception and that any invasion that is to have the slightest chance of success must be a very much more complex operation and must involve numerous and large forces.

Only minor efforts have been made to outline the difficulties and the problems which will confront such an action.

The following chapters will discuss the conditions and chances for an invasion, and show the range of preparations to be made.

For our purpose, the European

## Rock Big Port British Bombers Smash at Naples

By GEORGE PALMER

Exclusive to The Edmonton Bulletin  
Copyright, 1943, by British United Press

ALLIED HEADQUARTERS, North Africa, June 18.—R.A.F. Wellington bombers flying almost unopposed in bright moonlight rocked the big harbor of Naples with 4,000-pound blockbuster bombs early Thursday and a few hours later heavy American bombers dumped tons of explosives on key airfields in Sicily.

The steady Allied aerial offensive still was centered around the invasion island of Sicily, which must receive its main supplies via Naples. Attacks in the present onslaught have aimed at knocking out Axis air bases and communications. (Neutral reports said the main Axis fighter fleets had been withdrawn to Italy proper to escape destruction.)

The R.A.F. block-busters dropped on Naples covered the dock area and a target just inland from this section, while other bombs smashed the railroad freight yards in a pattern-bomb attack that pilots said was highly successful.

The bright moon illuminated the target and pilots said the lack of strong opposition permitted them to take their time and pick their targets with great care. A few Axis night fighters were driven off. On Thursday the American Middle East bombers followed up with heavy attacks on the important German and Italian airfields in Sicily, but weather conditions in the theater of the war made the strategic air force based in North Africa.

(Allied broadcasts said that Allied planes attacked the Mount Vesuvius area, including Pompeii, the ruins of the famous Roman city of the last days of the empire.)

A force of headquarters ships down two Axis aircraft last night along the North African coast. No Allied planes were lost.

Only routine patrol operations were carried out in daylight yesterday, the communiqué said. All Allied planes returned safely from both day and night operations.

# Strength of 75,000 Full-Sized Polish Army Ready To Strike With Allies in Invasion

## Surprise Attack By Reds Takes Enemy Trenches

**By Henry Shapiro**  
Exclusive to The Edmonton Bulletin  
LONDON, June 18.—(CP)—The German DNB News Agency reported today that Russian shock troops had gone into action west of Kursk and north of Orel. It was further reported that the Russians were preparing for an impending Soviet summer offensive.

**MOSCOW, June 18.**—Red Army troops seized enemy trenches and fortified heights in a surprise attack west of Lake Iznia and have firmly to a river bridgehead above Orel today as a preliminary to a major offensive. The attack was reported as a "strategic dead-end" in Russia.

**MAINLY FROM RUSSIA**  
The unit is largely composed of survivors of the Polish Carpathian division which participated in the Turkish and Libyan offensives. But the unit is also composed of Polish soldiers who were captured in Russia in the winter of 1941-42, following the Russo-Polish pact. It is reported that these prisoners of war.

**ANDERS' ARMY** now is a wholly independent unit, separate from the average army corps, and is commanded by General Anders as a number of separate units, but his men are counted as a part of the Polish army. The unit is on the alert in Persia and Iran.

**NAZI'S POSITION**  
Germany's position now was likened by Galaktionov to that of 1915. He said that the Germans are facing a powerful Russian offensive and yet thrown in all its forces, and United States production already is making levels in the end of the last war."

**Alberta Officers  
Win Promotions**  
OTTAWA, June 18.—(CP)—Defence headquarters today announced promotion of 85 officers and 12 warrant officers in the Canadian army. The list, including personnel from 11 military districts throughout Canada, names one new acting colonel, W. A. Townsend, R.C.M.C., and one new acting major, R.C.M.C., and one new acting captain, R.C.M.C.

**Further Staggering  
Of Hours Expected**  
VANCOUVER, June 18.—(CP)—"Further staggering" of working hours has been ordered by the federal government in Vancouver and other large cities in B.C. as a result of the shortage of labour. The order, which is effective immediately, states that all workers in the manufacturing and service industries must work longer hours.

**Provincial Blood  
Plasma Central  
Pool at Calgary**  
CALGARY, June 18.—(CP)—The provincial blood plasma central, comprising 1,000 units, with that number of sterile water containers and sets to administer the plasma, has been located at Calgary, and will be under the direction of Dr. J. R. Macdonald, C.M.C., and Dr. J. R. Macdonald, C.M.C., and Dr. J. R. Macdonald, C.M.C.

**Victory Nearing  
Says de Gaulle**  
ALGERS, June 18.—(AP)—A dispatch from the generalissimo Charles de Gaulle today declared that the victory was within grasp. He said that the German army was being defeated and that the Allies were making rapid advances.

**Germany Reports  
Turkish-Syrian  
Border Reopened**  
LONDON, June 18.—(CP)—The German radio, quoting a DNB dispatch from Ankara, said last night that the frontier between Turkey and Syria had been reopened. The report was not confirmed by any Allied or neutral source.

**Weather  
Charged at Coast**  
VANCOUVER, June 18.—(CP)—The weather was charged at the coast today by the British Columbia Coast Guard. It was reported that the weather was very bad and that the coast guard was on high alert.

**War Racketeering  
Charged at Coast**  
VANCOUVER, June 18.—(CP)—The British Columbia Coast Guard today charged that war racketeering was being carried on at the coast. It was reported that several individuals were suspected of engaging in such activities.

# Funny Business Germans Expect Allied Invasion In the Balkans

**Continued from Page One**  
attack on Sicily or the Italian mainland. Except for an Italian report that German troops were concentrating in the Balkans, the Sicilian threat was not emphasized today.

**WORKING OVER TURKEY**  
The Axis was, however, still showing some concern about Turkey's future position, asserting that the action related here had been a result of German policy of Turkish diplomatic positions at the French-Swiss border.

**R.A.F. Attacks  
Nazi Transport  
On Continent**  
Continued from Page One  
explosions were observed at a rail station near Bucharest.

**Whirlwinds caught in enemy torpedoes** took two miles off the French coast, lifted it out of the water with bombs and then away the superstructure with cannon-fire. The E-boats came to a standstill and were not able to return to the fire.

**ARMIES ARE READY**  
Both the British Ninth and Tenth armies are ready for action and presumably would participate in any invasion of the Balkans. The British Ninth Army is currently in the middle-east, but there are reports that it is being moved to the Balkans.

**FIRE SPREADS FAST**  
The flames, fed by oil scattered by the burning bomb, spread rapidly and were not extinguished for several hours. Volunteers, among them a group of British soldiers, carried out the work of fighting the fire.

**PURGE OF ARMY**  
Premier Benito Mussolini was said to be purging his army, the Italian government and the Fascist party of all anti-war elements and of those who were not in the "highest provocation."

**Peace Talk Rumor  
Denied by Russia**  
LONDON, June 18.—(CP)—Russia today flatly denied a rumor published in the pro-Nazi "Chicago Daily News" that the Soviet government was ready to accept peace terms.

**40,000 Japs Killed,  
Wounded in Battle**  
CHUNGKING, June 18.—(AP)—Approximately 40,000 Japanese were killed or wounded in the 40-day battle for the upper Yangtze River, Chinese army spokesman said today.

**Japs Mace  
10,000 Civilians  
In Chinese City**  
CHUNGKING, June 18.—(AP)—The Central news agency, spokesman of the Chinese government, said today that Japanese troops had maced 10,000 Chinese civilians in the city of Chungking.

**War Labor Board  
Concludes Inquiry**  
OTTAWA, June 18.—(CP)—The National War Labor Board today concluded its public inquiry into the labor relations of the Canadian War Relocation Authority.

**Committee on Radio  
Hears Toy Dispute**  
OTTAWA, June 18.—(CP)—The Committee on Radio today heard testimony in the dispute between the Canadian Broadcasting Corporation and the National Union of Broadcasters.

**U.K. BUILDING  
200-PASSENGER  
FLYING BOATS**  
LONDON, June 18.—(CP)—The British government today announced that it was planning to build 200-passenger flying boats for use in the Atlantic and Indian Oceans.

**U.S. Race Riots  
May Have Been  
Enemy Inspired**  
BEAUMONT, Tex., June 18.—(AP)—City officials suggested yesterday that enemy influence may have inspired the race riots of the last two days which resulted in the deaths of two men, injuries to several others and extensive property damage.

**4,198 Axis Planes  
Destroyed in War  
Over Great Britain**  
LONDON, June 18.—(CP)—Lord Croft, parliamentary under-secretary for the war office, reported today that 4,198 Axis planes had been destroyed over Great Britain from the war to June 1.

**"Gee, Mom,  
That's  
Great!"**  
OTTAWA, June 18.—(CP)—The National War Relocation Authority today announced that it was planning to build 200-passenger flying boats for use in the Atlantic and Indian Oceans.

**War Racketeering  
Charged at Coast**  
VANCOUVER, June 18.—(CP)—The British Columbia Coast Guard today charged that war racketeering was being carried on at the coast. It was reported that several individuals were suspected of engaging in such activities.

**Weather  
Charged at Coast**  
VANCOUVER, June 18.—(CP)—The British Columbia Coast Guard today charged that the weather was very bad and that the coast guard was on high alert.

**War Racketeering

## Crops Healthy, Ten Days Late In Most Areas

WINNIPEG, June 15.—Cool, cloudy weather which has been so prevalent this spring continued over last week end, followed by several bright days with temperatures ranging from 50 to 70 which brought about a decided improvement in all crops growth, according to the weekly crop report of the Department of Agriculture of the Canadian National Railway.

Heavy rains occurred in some localities and light heavy showers in others. Work on land has been again delayed and due to the lateness of the season for seeding grain, more land will produce green fallow or even be left in summer-fallow. Wheat is up from three to six inches and standing thickly.

**RYE HEADING OUT**  
Some fall rye fields are reported heading out. Local damage from cutworms and wire worms is noted but crops generally are of strong healthy color and quite even. Future yields will be good.

Barley is up from three to six inches and standing thickly. Some heavy rains occurred in some localities and light heavy showers in others. Work on land has been again delayed and due to the lateness of the season for seeding grain, more land will produce green fallow or even be left in summer-fallow.

**Southern Manitoba reports** all crops about two weeks behind usual with grain growth delayed account heavy rains and cool weather. Some low-lying fields are turning yellow due to excessive moisture. Wheat is up over six inches and standing thickly, while coarse grains are about four inches high. Late crops are up to permit of much progress in summer-fallowing.

**Northern Manitoba reports** that cool weather with heavy rains has prevented completion of seeding in a few districts. Considerable rain in temperature with bright sunshine during the last few days was welcome. Wheat is up from two to five inches and fall rye is reported heading out. Moisture conditions are excellent and no damage is reported from any source.

**WEATHER IMPROVES**  
Low temperatures have prevailed over most of southern Saskatchewan but weather is now somewhat warmer. Light to heavy rains have fallen and all points report plenty of moisture. Crops have made good progress but warmer weather is needed. From some districts come reports of light damage from cutworms and wire worms.

**Central Saskatchewan reports** that farmers follow work on land to rain but that moisture is too heavy to carry the crops some time. The same story is told of crops looking healthy but from 10 days to two weeks late. Grain is up to seven inches high and standing splendidly. Flax has germinated uniformly and in most areas is of healthy growth. Some heavy rains and warm activity is reported but damage has not been noticeable.

**Wet prospects continue** in northern Saskatchewan general rains have fallen and moisture conditions continue good and are sufficient for some time to come. Wheat is about five inches above ground, looking strong and good color and now standing thickly. A few heavy rains have delayed seedling growth but the season is still fully ten days behind normal. Continued warm weather is required for growth.

**RAIN IN ALBERTA**  
South central Alberta has had cool, cloudy weather with heavy rains. Moisture conditions are good and all seeding is completed. When weather warms up growth will be rapid. Farmers are now busy summer-fallowing.

**Central Alberta has had wet, cool weather** which has prevented much work on the land. Grain has been slow, but grain has stood well, looking healthy and good color from three to six inches high. Some extra land has been planted with barley, or in some districts more land will be blackened to summer-fallow than usual.

**Cutworms are reported** from numerous localities where they have done considerable damage to garden crops but have not yet become active in grain fields.

**From the Peace River** come reports of clear weather, turning warmer. Crops are growing fast with local rains furnishing ample moisture.

**WET WEATHER IN WEST DELAYS PLANT SEEDING**  
WINNIPEG, Man., June 15.—Wet weather general in the west during the past week but the day ended conversion of seeding of a

## Joint Discussions Take Place on Alaska Military Highway

Neuberger, aide-de-camp to Brig. Gen. O'Connor. (See story on page 10.)

## Check Closely on Damage

### Experts 'Pin-Point' Targets in Reich, Send Planes Back if Key Spots Missed

By WALTER LOGAN

Exclusive to The Edmonton Bulletin Copyright, 1945, by British United Press

LONDON, June 15.—The Royal Air Force and the Canadian Pacific Railway's aircrafts Cologne or Düsseldorf, Essen or Dortmund with one of the great raids of the war, causing wholesale destruction.

Small percentage of coarse grains remaining to be sown, mostly eastern and west central Manitoba in southeastern and central Saskatchewan and in north central Alberta, the weekly report of the Canadian Pacific Railway's agricultural department said today.

While growth is backward in comparison with normal years due to prolonged cool conditions, grain well established, is standing out well and rapid advancement will follow higher temperatures and sunshine.

**WHEAT UP 12 INCHES**  
Wheat in Manitoba ranges in height up to 12 inches, averaging five inches as compared with eight inches at this time last year. Saskatchewan average is also five inches, as compared with seven and a half inches last year, and in Alberta the average is slightly above five inches against eight inches last year.

Oats and barley in the three provinces are up to an average of three and a half inches, as against five inches at this time last year. Moisture conditions continue favorable in Manitoba, Saskatchewan and most of Alberta, but in the foothills province in the area north and northeast from Lethbridge and in the east central Lethbridge and Medicine Hat districts the weather has been unfavorable.

One of the first districts to be seeded, precipitation is on the right side and one point reports slight deterioration due to dry conditions.

Parts of eastern Manitoba on the other hand have been flooded and slight to ten per cent damage to crops is mentioned in some places, and in some cases where grain has not been sown it is likely this acreage will be summerfallow.

**NEED WARM WEATHER**  
Wet growth has been prolific as the result of abundant moisture and the general need is for warmer weather to accelerate growth.

Wire and cut worms are causing damage in scattered areas in southern Manitoba and in southern Saskatchewan.

**MAIN REPARATIONS**  
Main Allied preparations obviously are under way in the central Mediterranean and reports regarding the closing of the Turkish Syrian frontier indicates that something may be afoot in that theatre also.

The Germans themselves have been putting out stories regarding concentrations of invasion craft on the south coast of the British Isles which might suggest preparations for attack on northwest France or the low countries.

There also have been repeated reports that invasion of Norway is contemplated, mainly as seen at the period of almost constant daylight starts to wane.

But a week or a month later the British and Canadian bombers are pounding the same target.

Why? The chances are the ministry of economic warfare suggested the return raid, new expert may have looked at a reconnaissance photograph and said, "The bombs missed a key spot right there."

Or another expert may have been reading a letter written to a German prisoner from that town which mentioned the "big white house two blocks down the street" that escaped bombing. And the expert who thought that right beside the house is a shop on which factories many miles away depend for essential parts.

**DEPENDS ON DETAILS**  
The ministry's work depends on just such details as those.

A big staff maintains such close watch on German industry that Nazi war production might well be dislocated entirely with 1,000 block-buster bombs if each could be dropped on the exact spot decided. Unfortunately, bombing is not that accurate.

The staff includes many men who have spent their lives in Germany or elsewhere in Europe. They know in detail the layout of the R.A.F.C.A.P. attack, and check closely on all factories affected.

It is not unusual for one of a factory building is hit just what machines were housed there and exactly what the effect will be on the factory's production as a whole.

The ministry had much material on German industry before the war, and it has been supplemented with intelligence reports from Germany, aerial reconnaissance, and neutral sources.

**NUMEROUS EXPERTS**  
In the ministry are experts on many subjects—rail transportation, munitions, optical instruments, etc. The railroad experts, for example, determined that Germany now has four times as much track as before the war, but only two and one half times as many locomotives.

Therefore the ministry suggested to the air ministry that locomotives should be made a special target. That accounts in some measure for the frequent raids on the Krupp works at Essen, the Henschel works at Kassel, the Schneider plant at Creusot, and such industrial objectives.

The campaign also includes frequent attacks by fighter planes on locomotives, of which 150 were damaged last month.

**Economic Reforms Urged by Bracken**  
HALIFAX, June 15.—(CP)—Inequalities in Canada's economy must be corrected after the war or "half the people will drink into Communism and the other half into Fascism," Hon. John Bracken declared at a public meeting here last night.

"And then we would have war again," the Progressive Conservative leader said in his audience in a hotel ballroom as he reached the half-way mark of his 10-day tour of Nova Scotia.

Mr. Bracken said the country's major practical problem of the post-war period would be that of keeping up the level of the national income Canada has its own record to achieve in peace what he was achieving in war.

He felt the Dominion had no national ills that could not be remedied by co-operation in this hour of mine," he said, "I have discovered a thousand problems, for each community has its own peculiar conditions."

But I know that the heart of the nation is sound and, while there are many sore spots, it has none that can't be cured if we can get the feet of the nation under a common table."

It was suggested that such attacks might be launched simultaneously or serially, with brief intervals for the main purpose of wearing down Nazi offensive power along the pattern of the Tunisian campaign.

## 500 Prisoners Aiding Farmers

LETTERIDGE, June 15.—(CP)—

Sugar beet farmers of southern Alberta are being helped through a labor shortage by 500 prisoners of war.

They have volunteered for field work, and are working in eight-hour shifts and doing a good day's work," Col. E. S. Doughty of Ottawa, liaison officer for the Federal department of labor, said yesterday.

The 500 men are transported by truck convoy to the fields each morning, and taken back to their military establishments at night. A guard is maintained at all times.

(Due to a telegraphic transmission error, The Canadian Press yesterday reported that 5,000 prisoners of war were engaged in the sugar beet fields of southern Alberta.)

## Logger Charged In Girl's Murder

VICTORIA, June 15.—(CP)—

William Mitchell, 36-year-old Vancouver Island logger, was charged in nearby Saanich police court yesterday with murdering Molly Justice, 15-year-old seamstress whose knife-slashed body was found Jan. 18 on a railway right-of-way close to the home she shared with her widowed mother.

"I'm not guilty," Mitchell said as the charge was read. He was remanded until next Thursday for preliminary hearing.

Mitchell was arrested last Sunday in a downtown hotel and charged the following day with murdering Molly Justice, in which he has yet to face trial. The arrest was made by Sgt. Eric Ewell and

Detective David Donaldson, who have worked on the Justice slaying unavailingly for five months.

Molly, pretty daughter of Mrs. Muriel R. Justice, bled to death

from a score of knife wounds inflicted by her assailant. The attack was made in a lonely four-block stretch that lay beneath the bus stop and her home.

## FOOD for FREEDOM

Canada's sons in the battle lines, and uncounted millions of men, women and children in a war-torn world, look to the "Nations of the West" for supplies of life-giving FOOD.

The farmers and other producers who are arriving in the face of many difficulties to meet this great need, will find full co-operation and support in the services of The Bank of Nova Scotia. From coast to coast, our branch offices, each maintaining a complete banking service, are taking an active and necessary part in the country's activities.

If it will save time for you, banking may be done by mail safely and quickly. Our nearest branch will welcome your enquiry.

# NEW USES FOR BEST FOODS

## Real Mayonnaise

### TO SERVE INSTEAD OF BUTTER

As a spread for bread Best Foods real Mayonnaise adds important food energy, spreads easily, smoothly and economically. It is delicious and nutritious and substantially as rich in food fuel-energy as butter. Best Foods real Mayonnaise has just the right "body" and texture to spread on bread... and what a flavor it has.

### ★

### FOR TASTY WARTIME MEALS

Use Best Foods real Mayonnaise in dozens of ways to help cheer up wartime menus. This real mayonnaise can be stretched with milk or fruit juices without getting watery and its rich, firm consistency means that there's no waste. There are dozens of ways to add food value and appetite appeal to left overs when used with creamy golden-rich Best Foods real Mayonnaise.

### ★

### TO SERVE PIPING HOT

Hot Mayonnaise sauce saves time and money. It's delicious with asparagus, broccoli or green peas. Here's how to make a sauce that tastes as good as it looks. Put 1/2 cup Best Foods real Mayonnaise and 1/4 teaspoon salt in top of double boiler and mix. Stir in 1/4 cup of milk, a little at a time. Cook 5 minutes over boiling water, stirring constantly. Warning do not overcook. Yield—3/4 cup.

## To Cover Surprise Move

### Allies are Waging War of Nerves

By HARRISON SALISBURY

Exclusive to The Edmonton Bulletin Copyright, 1945, by British United Press

LONDON, June 15.—The Allies now are waging what constitutes a full-blown war of nerves against the Axis, with increasing signs that may be employed as a cover for a surprise move against the Germans.

The Germans know that the Allies are preparing to attack many places, but they don't know when, in what order, or in what strength.

The constant succession of stories, reports and rumors tend to confuse the Germans as to Allied intentions. The Germans know, for example, that the United Nations (certainly) are going to operations in the Mediterranean area. Allied air power has been seen at the period of almost constant daylight starts to wane.

The Axis in doubt about whether the Allies also are ready to strike the Italian coast of France, the Ionian Islands, Crete and possibly even the south coast of France.

Main Allied preparations obviously are under way in the central Mediterranean and reports regarding the closing of the Turkish Syrian frontier indicates that something may be afoot in that theatre also.

The Germans themselves have been putting out stories regarding concentrations of invasion craft on the south coast of the British Isles which might suggest preparations for attack on northwest France or the low countries.

There also have been repeated reports that invasion of Norway is contemplated, mainly as seen at the period of almost constant daylight starts to wane.

## Canadian Rubber

The new synthetic rubber plant at Sarnia, Ontario, is an enterprise of magnitude and great permanent importance. The Minister of Munitions told parliament the plant will produce enough rubber to meet the peacetime needs of the Dominion and the product will be as cheap as "natural" rubber, and as good, perhaps better, in quality.

The raw material to be used comes from petroleum, combined with a by-product from steel plants. Mr. Howe explained that to use wheat-alcohol as a base would involve either high-price grain or low-price wheat, and a more costly plant. To produce rubber from the alcohol at a low price as from petroleum, wheat would have to be delivered at the plant at a laid-down price of from 20 to 40 cents per bushel.

## Ontario Takes Action

The Government of Ontario is to increase pensions to aged and blind persons 15 per cent. The present rate being \$20, this will add \$3 to the monthly pension cheques—still \$7 below what the pension should be everywhere in Canada. But that Ontario is moving in the right direction, the insufficiency of the present rates is being recognized in eastern as well as in western Canada. This should encourage Mr. Nixon's recommendation that the government make one dollar per day the rate in all parts of the Dominion.

Ontario is and always has been conservative in financial matters, and means inclined to take the lead in social legislation. Even Mr. Hepburn did not make a pension increase part of his comparatively radical financial program in 1943. Mr. Nixon is recognizing that conditions have changed, and trusting that popular sentiment has also changed. As higher pensions are admitted to be needed in that province, the fact must be getting apparent in all the others. The Dominion should therefore take action to set the scale at one dollar a day everywhere, thus putting it up to all the provinces to get into line and consent to pay their share.

## Those Mosquitoes

The city commissioners say it would probably cost about \$10,000 per year to make Edmonton a mosquito-free city, assuming of course that the necessary oil could be obtained in these strenuous times. To sprinkle the ponds and rivers with oil, out. Gardeners, golfers, and people generally will agree that it would be worth the money in a season when the pests are as numerous and annoying as they were a few weeks ago. But, added to the oil question, the welcome fact appears to be that for some reason they are less plentiful or less ravenous than in previous years. Measures may not be very urgent for the present summer.

Fortunately, the commissioners also know where the \$10,000 can be got, if it has to be spent on a mosquito-war. Over the last ten years the city has been paying insurance premiums of over \$3,000 a year, while the fire losses have been running around \$4,000. One way or another it is proposed to cut down the insurance cost, by securing lower rates from the companies, by insuring with the province, or by setting up an insurance fund with annual allotments from city revenue. So if we have to open an anti-mosquito war, a mosquito may not cost the taxpayer anything in the shape of higher tax-bills, a consideration usually to make him positively minded about the matter.

## He's a Busy Man

The stories we are reading about the jittery state of the Nazi nerves are mostly products of under-ground reports which have been picked up and passed on by imaginative writers in Allied and neutral listening posts around the fringes of the Hitler empire. And some of the reports are so fantastic that they are almost amusing. At translating into plain language the veiled admissions made in Berlin broadcasts aimed at bolstering morale on the enemy home front. But at that, the fact is that the Nazis who started the "war of nerves" the reasonable assumption is that they sensed this to be a singularly effective way to shake the nerves of the Allies. They probably thought it would shatter resistance in other nations because they knew it would shake their own. If so, they are getting plenty of evidence that their opponents share their views of Nazi susceptibility.

Announcement of the arrival of King George in North Africa synchronized with news from Ankara that the British authorities had closed the border of Iran to enemy movement and that the British armies there. The same day London sent out a circumstantial account of the massing of invasion barges in southern English ports, with a picture of the Royal Navy way an expeditionary force would go about making a landing on an enemy coast. And from Moscow came the response that when the western Allies strike, the Red army will deliver a "crushing blow" on the eastern front.

# Side Glances

This free information was not handed out to Germany for no purpose. It was part of a continuous, systematic and well-directed barrage of threats that is being poured into the Reich from all sides. While the result is largely guesswork as to extent, there is no uncertainty as to kind of reaction this drum-fire is bound to produce in the minds of the masses of the population. And there is evidence from Berlin itself that official Nazism is scanning the horizon in every direction for the breaking of the storm, and shuffling groups and supplies from one point to another in a frantic attempt to make the borders inviolation-proof at all points.

Dr. Goebbels, who is a clever little villain, probably admits the attack which the Allies are using his own propaganda weapon. They are keeping him busy thinking up ways to repair morale damages.

For the fourth time, Chinese officials report that the Japanese have been using poison gas, giving the date, place and method. That shows how much Tokyo cares for the warnings given by President Roosevelt and Prime Minister Churchill. Tojo and his associates are unshaken in their cocksureness that the Allies cannot make good the promised reprisals. And it doesn't do any good to tell them or to tell them they are mistaken in supposing so. The only thing that will convince them is a deadly demonstration.

## Looking Backward

From The Bulletin Files

### 1893: 50 Years Ago

W. T. Henry is erecting a dwelling on Jasper avenue, west of Fielders warehouse.

A crematory will soon be in operation at Red Deer.

It is a book for the general reader, and it is not a book for the general reader.

"You'd better appeal to Junior—be writing a novel in which the hero kills a dozen guards and escapes from five prisons, including Alcatraz!"

## Redistribution Is Postponed

By R. T. RICHARDSON

The redistribution of federal representation in the House of Commons will be postponed until after the next election.

Minister Mackenzie King, was applauded by members in all parts of the house, but by some so enthusiastically as those from western Canada.

The fight against redistribution of seats in the House of Commons has been carried out by the government since 1926.

In 1926, when D. M. McNeill, (Lib., Sask.) raised the issue in the House of Commons, the government was in a minority.

The speech that Mr. McNeill made on Feb. 14, 1926, suggested the redistribution of seats in the House of Commons.

He said: "If our constitution is to be a real democracy, it is imperative that the membership of the House of Commons be redistributed."

Since then, the government has initiated proceedings to amend our constitution so that we can postpone the redistribution of seats until after the next election.

When conditions have again become settled, and the membership of the House of Commons is redistributed, the redistribution of seats in the House of Commons will be postponed.

The loss of four seats in Saskatchewan, and three in Manitoba, was strongly indicated if redistribution of seats will be carried out on the basis of the 1942 census, as required by the British North America Act.

## Gibson States:

Revenue Branch Studying  
More Satisfactory Method  
Of Taxing Overtime Pay

OTTAWA, June 18.—(CP)—Revenue Minister Gibson told the House of Commons yesterday that while there is no possibility of a man earning less by working more under present tax laws, the Department of National Revenue is making studies with a view to finding more satisfactory ways of taxing overtime earnings.

Both Mr. Gibson and Munitions Minister Howie denied statements made by E. J. Johnson (N.D. Bow River) that absenteeism was caused by the tax laws taking away all or more than the extra money earned by working longer hours.

"There is no combination of circumstances under the present tax laws which penalizes a man for working more," said Mr. Howie. "It is impossible for a man to work more and lose money. A man earns more if he works more."

## LAW NOT UNDERSTOOD

He said Mr. Johnson did not understand the tax laws and asked him not to make statements "misleading and dangerously misleading" to workmen without looking into the law carefully.

There are enough destructive stories abroad now without having any spread from the House of Commons," said Mr. Howie.

Mr. Johnson said if a woman earned \$860 a year she paid no tax. If she earned \$861 she paid a tax which reduced her income below \$860.

Mr. Gibson said this was not so. No tax reduced an income below the exemption level.

Clarence Gillis (C.P.F., Cape Breton South) said when income tax was deducted at the source on weekly earnings on the basis of overtime pay, deductions were made on the basis of overtime pay. He said that no overtime was worked.

"At the end of the year you can get a refund if you can't get the one of those forms and get a couple of lawyers to fill it out for you," he said.

**REBATES DIFFICULT**  
The system militated against the whole basis of seeking income tax production on an overtime basis. The people did not understand the rebates available at the end of the year and in any case it was hard to get rebates. It might take a year or two before they could be obtained.

Mr. Gibson said overtime might raise a man into a higher bracket than the one in which he would eventually have to pay. This was causing the department some concern and was being studied to see if some other method of taxing overtime could be found, which would equalize the tax and not cause dissatisfaction.

The discussion took place on Mr. Howie's estimates in the case of appropriation bill and Mr. Johnson raised the question in connection with coal production. He thought workers were discouraged from overtime work which was essential to increased production as there was little prospect of getting enough additional men into the mines either from the army or elsewhere to raise the output.

**QUESTIONED ON RUBBER**  
Mr. Howie was questioned further on the decision to use petroleum rather than alcohol as the base for synthetic rubber and said the best technical advice was obtained on the question before making the decision.

Rev. E. H. Maxwell (N.D., Macleod), had seen piles of old tires around the country and wondered why they were not used for reclaimed rubber if there was a shortage.

"The supply of reclaimed rubber is very good, indeed," said Mr. Howie. "In fact collections of old tires have exceeded the capacity to reclaim their rubber content."

Answering questions from J. G. Diefenbaker (Prog. Con., Lake Centre) about aircraft production at the Malton and De Havilland plants, Mr. Howie said it took 13

## Queen to Screen

Rosemary LaPlante, winner of a Miss America beauty queen title, will soon be seen on the screen when she has a movie contract.

LaPlante, who won the title in 1942, is now in the United States where she is making a movie.

She is expected to return to Canada in the near future.

LaPlante is a popular actress and has appeared in several films.

She is currently working on a new film which is expected to be released soon.

LaPlante is a versatile actress and has appeared in a variety of roles.

She is a popular figure in the entertainment industry and is expected to continue to be so.

LaPlante is a talented actress and is expected to have a successful career.

Electrification  
Of Rural Areas  
Talked at Meet

SENIORITY CLUB, Que., June 18.—(CP)—Those that the advice of the federal government is to be used in the future will be pooled in post-war planning for the extension of rural electrification was expressed here yesterday by Prof. J. Turner of the University of New Brunswick, in an address prepared for delivery before the annual convention of the Canadian Electrical Association.

Mr. Turner, who is president of the association, said that the system of publicly-owned power system and by private systems in British Columbia and in Alberta.

In British Columbia, privately-owned operators had achieved a "nationwide figure" of 38 without the benefit of financial help and in Quebec one private company had made electricity available to 40 per cent of the farms in its area, although only 36 per cent of the farmers made use of it.

**CHALLENGES REPORT**  
Prof. Turner challenged many points of the 1942 report of the Manitoba electrification enquiry commission and said it was "an admirable summary of the reasons why farmers should be served" although he believed it presented "some general deductions that seem far from fact."

On the basis of his previous figures, he challenged the report's statement that "privately-owned electric companies have not been able to bring power to farmers on a large scale."

Ontario hydro's slight margin of saturation—which is 37 per cent—over British Columbia and Quebec, had been achieved only at the cost of millions of dollars, and the money in the form of subsidies and the loss of additional millions in tax revenue, such as private companies elsewhere have paid.

**PURPOSE OF STUDY**  
The Manitoba government, he said, had asked that the commission study how electricity could be brought to the farms and communities could be effected "without at the same time increasing the standard rate of electricity to any citizen of Manitoba."

He said that the commission hearings had not included suggestions from the various private companies that were making progress in rural electrification, and said "private utilities are professionals in the matter of electric distribution and in many cases the provincial and state are starting from scratch."

**Cost-of-Living**  
**On Farms Higher**  
OTTAWA, June 18.—(CP)—The index of farm family living costs—calculated on the base 1925-29 equals 100—rose from 119.9 to 121.3 between last August and April this year, the Dominion bureau of statistics reported yesterday.

"The increase of 14 points or 12 per cent in the farm family cost-of-living index may be compared with an increase of 13.5 per cent in the Canadian wholesale price index of farm products between August, 1942, and April, 1943," the bureau said.

The living costs index differs from the official cost-of-living index, in which rentals and the retail prices of farm products are important items. It does not include the cost of housing or of food or of other necessities produced on a farm for home consumption.

**Boy, 7, Drowned**  
**In Saskatchewan**  
SASKATOON, June 18.—(CP)—Seven-year-old Arthur Ahlstrom, son of Mr. and Mrs. Adolph Ahlstrom, of Saskatoon, drowned in the South Saskatchewan river near the city pumping station yesterday.

Police said the boy was playing in the municipal swimming pool, recovered after a search of the river. The coroner's inquest was adjourned until Friday.

**URGES RE-ORGANIZATION**  
The Canadian record of aircraft production had been "lamentable," a larger share of departmental ex-

# Men of Canada's MERCHANT NAVY

*Urgently Need*

- CLOTHING
- DITTY BAGS
- RESCUE KITS

The Navy League of Canada is performing one of the most useful and at the same time most appreciated services of any auxiliary to the armed forces. The boys of the Merchant Navy are carrying out hazardous, tedious and lonely duties with courage, fortitude and good cheer. Little is written or said of their achievements, as, of necessity, their deeds of daring are carried out far from the glare of publicity. But day after day, they are taking valuable convoys through to Allied Nations' ports, supplying the armies, navies and civilian populations with necessities of war and of subsistence. The Navy League is continuing its noble work. Your support is urged and solicited on behalf of the Navy League and of those thousands of self-sacrificing, gallant men, in the tag-day which is being held Saturday.

## MONEY to Supply These Necessities Is Needed Immediately by the NAVY LEAGUE OF CANADA

question on the local golf front for the next few days is whether or not Henry Martell can make it nine straight, for the Highlands are already having taken the title eight times in a row included in the list of entrants for the qualifying round in the annual tournament which gets underway on his home course tomorrow.

Last year Martell defeated Clarence Richards of Mayfair in the final, shooting a 67 to 70 in the semi-final was Glenn Gray, also of Mayfair, where the tournament was held, while Richards won from Vernon Mohr of Municipal.

John and B. Kilburn were the survivors after the first in the championship flight. W. C. Broadfoot, of Mayfair, was in the low score in the 1943 flying round—114 while Martell and Pete Olney were in one over that figure. Olney was the only one of that quartet not competing this year, being pro of the Highlands.

**SUNDAY GOLF OKAYED**  
CANADIAN weekend golfers, and there's a host of them across the country these days, can thank a judgment given in a Toronto County Court in 1935 for their opportunity to play Sunday golf without any interference from the law under the Lord's Day Act. The case is reported in the history of the Toronto Golf Club, which was founded around 1876.

In the spring of 1893 three members of the Toronto Golf Club, having been summoned to appear before the magistrate at

## Riverland, \$6,000 Bargain

**May Have to be Destroyed**  
NEW YORK, June 18.—(AP)—Trainer Moody Jolley said today that after examining Harold A. Clark's badly-injured Riverland, three veterinarians decided to wait until today before giving their decision whether to destroy the five-year-old.

Riverland, a \$6,000 bargain who won nearly \$100,000 in three last year, broke his hip at the Carter handicap at Aqueduct last Saturday. He is insured for \$40,000 and the insurance company has the final say as to his disposal.

"I'm fully convinced the horse will have to be destroyed," Jolley said.

**BEAT BOTH ALSA AND WHIRLWIND**  
NEW YORK, June 18.—(AP)—Three doctors went into a huddle over Riverland's broken hip at Belmont Thursday, and the chances are they'll order the immediate destruction of the "giant gasoline-burner" of the turf.

For five days, the huge bay gelding—\$60,000 horse who has earned just under \$100,000—has been suffering in his stall while trainer Moody Jolley and owner Harold Clark, the Miami hotel manager, have waited for word from the insurance company. There's a \$40,000 policy covering the huge son of Midstream, and an company is losing that kind of "cash" around without looking things over.

The hip was smashed last Saturday in the "Carter handicap," trainer Jolley explained. "The ground gave way under his hind legs just as he sprang from the gate, and that's probably where the injury occurred. My opinion he'll have to be destroyed."

Riverland was most noted for the steady job of whipping both Whirlwind and Alsa in a space of four days last fall.

**No. 2 Protects Southpaw Ruse**  
NEW YORK, June 18.—(AP)—Russo has won either No. 2 or 22 throughout his career. It was No. 2 in high school, 22 at Long Island University and Brooklyn College. When he reached Newark, Russo found that Oscar Vitt was 22. The situation explained, Manager Vitt gave up the number.

## Luis Firpo Would Oppose Dempsey As Heavy Second

NEW YORK, June 18.—Luis Angel Firpo wants to bring a charge of playing golf on Sunday, and second him against an opponent backed by Jack Dempsey. In that way, the Old World Bull of the Pampas would celebrate the 20th anniversary of the mad Dempsey-Firpo match.

Firpo's protegee is Abel Costar, and Dead Pat Louie says his punch is so terrific that the Argentinean federation of boxing had to devise a special set of rules to govern his fights. D. P. Louie neglects to state just how things are made any easier for the bloke in the corner. He declares that Costar has 38 knockouts in 34 fights and has never been beaten.

Firpo reveals that Costar carries his own physician, Dr. Rodolfo E. Spill. Argentine congressman and brother of the ambassador to the United States, judging by what he tells.

Lieutenant-Commander Dempsey believes his charges can bring employment. Firpo will also bring along Juan Utrich, a Peruvian heavyweight, who will especially like the one big date with the Old Manana Man Mader behind the other fellow.

It would be an unusual attraction for war funds.

Firpo says the good time he had in America, which barely lasted a week, was at the Polo Grounds, when the most cyclonic ring battle in history was fought seven times in the first round. Firpo got up again to beat Dempsey out of the ring.

It couldn't have been more exciting had they been doing it for pictures.

**23 Expected to Start**

## Fourth Wartime Derby

## At Newmarket Tomorrow

NEWMARKET, Eng. June 18.—(CP Cable)—The greatest classic of them all—the world-famed Derby—will be run over Newmarket's green turf Saturday, and the only safe bet is that there will be plenty of perplexity, crowds and queues. It will be the most open Derby in years.

Never within the memory of race followers have so many outsiders been left in this classic at the acceptance stage. About 23 of Britain's best three-year-olds are expected to go to the post.

All available accommodation in the district surrounding this old market town was booked long ago. The Derby, of course, holds the main attraction, but another factor is the Oaks—will receive almost as much attention when the red clay and two asphalt in the Oaks, open to fillies, has 13 entries.

Wayn, owned by Lord Astor, is the favorite in the fourth wartime Derby. Abard Wayn will be Clit Richards, one of Britain's outstanding riders and a brother of the British turf of British turf.

Good morning will be astride the temperamental Narrahul, one of Astor's three entries.

Second choice to Wayn is 13 to 2 is A. E. Saunders' Kingsway, winner of the 2,000 Guineas last month who will be ridden by Sam Wrag.

However, some tipsters who also claim their knowledge comes from the front line, say that Pink Flower as the best bet, though from a farmer for 18 guineas as an unbroken yearling. Pink Flower placed second in the Guineas.

The King, who hasn't an entry in either the Derby or the Oaks, won't be around to see the classic as he did last year. He is in North Africa with his troops, and there is no indication the Queen will be present.

Favorite to take the Oaks, at 9 to 4 is Tropical Sun, owned by Mrs. S. MacDonald-Buchanan with Gordon Richards in the saddle. Lord Derby's Harrington, winner of the 1,000 guineas, is second choice at odds of 1 to 2.

The Derby prize is 2,000 sovereigns added while the Oaks stake is 1,000 sovereigns added.

## Dodgers Lose Four Straight

## Krist Unable to Hold Reds As Cardinals Defeated 6-1

ST. LOUIS, June 18.—(AP)—Manager Billy Southworth, St. Louis Cardinals, who picks the spots for pitcher Howard Krist, chose a tough one yesterday for the tall right-hander was beaten 6-1 by Cincinnati Reds.

It was only the fifth defeat of Krist's major league career in 20 games against 20 victories. He came to the Cardinals in 1941 and has been remarkable relief pitcher, starting only occasionally. He has won three games this season.

The defeat was the Cardinals' second in a row at the hands of the Reds, marking the first time they had suffered two consecutive reverses in exactly a month. However, the loss meant nothing so far as their National League lead was concerned since Brooklyn Dodgers also were beaten.

# Today's Sport Parade

By Jack Cuddy

Exclusive to The Edmonton Bulletin  
Copyright, 1945, by British United Press

**NEW YORK, June 15.**—Another tempest in a pugilistic lagoon, but this time an excellent service boxer out of competition—Pete Johnny Greco of the Canadian army, who was moving rapidly toward the lightweight championship.

Because of criticism that followed Greco's rebound bout with Terry Young at Montreal May 4, Canadian defense headquarters in Ottawa said Wednesday that Greco had been refused permission to go through with his next bout against lightweight champion Bob Montgomery June 25 at New York's Yankee stadium.

An Ottawa spokesman indicated 20-year-old Greco would do more professional boxing for the duration.

## BOXING TAKES RAP

BOXING must take the rap for the Canadian army's action. Just as it took the rap when U.S. Secretary of War Henry L. Stimson ordered cancellation of the Joe Louis-Billy Conn heavyweight title fight last September, however, in neither case did men connected with boxing cause the sparks that actually touched off the explosions.

We were in Montreal for the Canadian Fight in May. Actual cause of criticism was the unexpectedly small gate of approximately \$150,000 at the Forum. Lieut. Col. Arthur G. G. St. Laurent, Canadian army, who had charge of promoting the bout, expected a gate of more than \$200,000. Accordingly, he promoted in big-time fashion. Young Greco, who was the available opponent at the time, was paid \$15,000. Lieut. Benny Leonard, former lightweight champion, was imported to referee the main bout.

## Kane to Fight Paterson

# Flyweight Title Bout Marks End of British Sports Week

LONDON, June 15.—(CP Cable).—Britain's greatest week of sport in wartime winds up on a major scale Saturday night when two little fellows meet at Glasgow for the world's flyweight boxing championship.

The long queues for tickets this week indicate that a limit crowd of 50,000 will be at the London Park, says Jackie Paterson, former Glasgow ship worker, battle Peter (Harry) Paterson, former flyweight king and once a Liverpool blacksmith.

Three titles will be at stake here because Paterson holds the British and Empire crowns and is defending both in addition to trying for the world championship. The schedule 15-round bout—the majority of observers believe Paterson will win by a knockout—will be recognized by both the New York State Athletic Commission and the British Boxing Board of Control as for the world title. The National Boxing Association in the United States recognizes little Dado of the Philippines.

Paterson is a 3 to 1 favorite in Glasgow, where he has many admirers, and is favored by odds makers at heavy odds elsewhere in Britain. The fight ends a brilliant week of sport which started over last Whitsun weekend and includes two of the great racing classics—the Oaks which is to be run today and the Derby Saturday.

Both Paterson, 25-year-old southpaw with a knockout punch, and Kane, 25 and a skilled boxer, are sergeants in the R.A.F.

Kane will be fighting to regain a title he never lost in the ring. He won the world championship in 1938 by beating the Californian Jackie Jurich, at Liverpool. A few months later he was forced to relinquish the title because of increasing weight.

But after joining the R.A.F. Kane fought he could again make the 112-pound limit.

Since 1941 Paterson has fought three times at odds as Kane and has had a meteoric rise since losing the London debut five years ago.

When his wife is born they are without male heirs.

**Oaks Won by 7-to-1 Choice**

NEWMARKET, England, June 15.—(CP).—James R. Rank's filly Why Hurry, a 7-to-1 choice in the betting, won the classic Oaks today, running the mile and a half course in two minutes, 33 1/2 seconds.

Why Hurry came up from the back to win in the last furlong. Charlie Elliott rode the winner. Ribbott, owned by Lord Rosborough, was second and Tropical Sun, the strong favorite at 4 to 1, was third. Britain's champion jockey, Gordon Richards, was aboard Tropical Sun.

The King, who has no entries this year in the Oaks or Derby, which is to be run tomorrow, had the winner in today's first race when Putting Green carried the Royal colors as a 10 to 1 underdog over the favorite, Candrena.

**Sam Byrd Quit**

**Bail For Golf**

PHILADELPHIA, June 15.—Sam Byrd was Babe Ruth's underdog as a Yankee outfielder. One day, when he outdrew the Bambino in a friendly game of golf, Byrd remarked: "You may have a title on now, Babe; hereafter I'm going after him."

Byrd quit baseball to become a professional golfer, progressed rapidly. Byrd's major tournament, Mrs. Byrd learned

British Charity Game

Golfers Not Put Off Game

Merely by Aircraft Overhead

By SCOTT YOUNG

MAIDENHEAD, Eng., June 15.—(CP).—A day-long study of English golfing style reveals only one pertinent fact that a good golfer can play just as well with a string of fighting aircraft drumming overhead as he can without.

The facts were overhauled all through the week as a charity affair over 30 holes of golf of England's first golfers—those who were a part of a drive held up because of their aircraft drumming overhead after a bomb raid over France.

Even while four Spitfires rolled out of a light formation and followed the leader in ever-decreasing circles directly over the heads, three bags-trotting veterans played top-flight golf, ignoring them. The gallery, with a few exceptions, did likewise.

Art Havers, a big man with full moon face and ruddy bald spot fringed by thick and wavy hair, was top man in April. Just at the second the Spits peeled off in screaming dives above Havers lifted an approach from 185 yards off the third green and rimmed the cup. It would have been an eagle two hole it sunk. Spits did all he got a birdie.

**BROKE AMERICAN STRING**

Havers, who qualified for the top spot, the age of 30 and broke the chain of American success with a victory in that event in 1933, was the best golfer in the match. He and his partner, 33-year-old Harry Lacy, former British and PGA champion, beat Len Howell, former winner of England, twice, a P.G.A. winner, two up.

The mechanics of playing match in wartime Britain are so far removed from the accepted North American standard that it probably would be hard to find a golfer usually starting about 175 yards from the tee. This certainly is no place for a club.

In addition, on all courses, a percentage of the fairways have had to be placed under cultivation. In three holes here, all but a 15-foot strip down the middle of the fairway was planted to wheat for 175 yards, then the open strip widened to 60 feet. Into the grain is out of bounds with wind of stroke and danger for clubs.

**AUCTION GREAT SUCCESS**

The gallery was about 400 people, paying three and six (about 80 cents) a throw to watch the match and tanning a shilling (24 cents) each. The tin held by club members every time anyone scored a birdie. There were 14 birdies in 18 holes. The Lord Mayor's Empire Air Raid Disfranch Fund benefited accordingly.

Most interesting, from the strictly historical standpoint, was an auction held in the brilliant sunshine, forts still standing by overhead, on the 18th green at noon.

**CANADIAN LEGION**

Two Canadian Legion bowling teams will visit Edmonton, June 22. The teams will be captained by W. McPherson and J. McPherson. The games will start at 7:30 p.m.

Most than 20,000 copies of true lies are known.

**INDIAN TRUMPETER**

British Charity Game

Golfers Not Put Off Game

Merely by Aircraft Overhead

By SCOTT YOUNG

MAIDENHEAD, Eng., June 15.—(CP).—A day-long study of English golfing style reveals only one pertinent fact that a good golfer can play just as well with a string of fighting aircraft drumming overhead as he can without.

The facts were overhauled all through the week as a charity affair over 30 holes of golf of England's first golfers—those who were a part of a drive held up because of their aircraft drumming overhead after a bomb raid over France.

Even while four Spitfires rolled out of a light formation and followed the leader in ever-decreasing circles directly over the heads, three bags-trotting veterans played top-flight golf, ignoring them. The gallery, with a few exceptions, did likewise.

Art Havers, a big man with full moon face and ruddy bald spot fringed by thick and wavy hair, was top man in April. Just at the second the Spits peeled off in screaming dives above Havers lifted an approach from 185 yards off the third green and rimmed the cup. It would have been an eagle two hole it sunk. Spits did all he got a birdie.

**BROKE AMERICAN STRING**

Havers, who qualified for the top spot, the age of 30 and broke the chain of American success with a victory in that event in 1933, was the best golfer in the match. He and his partner, 33-year-old Harry Lacy, former British and PGA champion, beat Len Howell, former winner of England, twice, a P.G.A. winner, two up.

The mechanics of playing match in wartime Britain are so far removed from the accepted North American standard that it probably would be hard to find a golfer usually starting about 175 yards from the tee. This certainly is no place for a club.

In addition, on all courses, a percentage of the fairways have had to be placed under cultivation. In three holes here, all but a 15-foot strip down the middle of the fairway was planted to wheat for 175 yards, then the open strip widened to 60 feet. Into the grain is out of bounds with wind of stroke and danger for clubs.

**AUCTION GREAT SUCCESS**

The gallery was about 400 people, paying three and six (about 80 cents) a throw to watch the match and tanning a shilling (24 cents) each. The tin held by club members every time anyone scored a birdie. There were 14 birdies in 18 holes. The Lord Mayor's Empire Air Raid Disfranch Fund benefited accordingly.

Most interesting, from the strictly historical standpoint, was an auction held in the brilliant sunshine, forts still standing by overhead, on the 18th green at noon.

**CANADIAN LEGION**

Two Canadian Legion bowling teams will visit Edmonton, June 22. The teams will be captained by W. McPherson and J. McPherson. The games will start at 7:30 p.m.

Most than 20,000 copies of true lies are known.

## District News in Brief

### Hold Services For P. C. Owen

LACOMBE—Funeral services for Percy C. Owen, former town councillor and secretary of a local hardware company for the last 20 years, will be held Tuesday after an illness of two months. He was 61 years old. Born in Georgetown, P.E.I., Mr. Owen came to Lacombe in 1906. He is survived by his wife, two brothers and two sisters.

Hugh Reed has returned to Vancouver after visiting relatives in the district. . . Miss Mary Hayes left recently for Vancouver after visiting Dr. and Mrs. W. T. Hynes. . . Mrs. Hugh Thompson will visit relatives for three months. . . Miss Margaret Miller is visiting in Calgary. . . Purchases of War Savings certificates by the pupils of Woodbrook school now total \$200. . . Mrs. S. E. Storey and Mrs. J. M. Broderick of Regina are the house guests of Mr. and Mrs. H. J. Ford.

LACOMBE CURFEW AT 10 P.M.—Town council has decided to have the curfew bell rung at 10 p.m. each evening until further notice. Previously the bell rang at 9:30 p.m. General shop and home economics classes of the local women were filled with visitors Tuesday evening for an inspection of the work done by the pupils. The parents and friends of the students were shown through the general shop by Howard Sharpe, instructor, while Miss Macgregor explained the work of the home economics classes to the mothers of the girls taking the courses.

### Pioneer Farmer Dies at Hanna

HANNA—The death occurred here recently of El Francis Hughes, 78, a former homesteader in the Youngstown district where he lived from 1910 until his retirement in 1934. A native of Ontario, he moved to Medora, Man., in 1901 before coming further west.

Mrs. John Becklund has received word of the death of her father, Oswald Savage of Irma. With her husband and son she left shortly after for Irma. . . Mr. and Mrs.

### Summer's Here But Clive Folks Think of Risk

CLIVE—Although most people are thinking of summer, fire-fighting people here realize that "old summer" comes winter. It can't be far behind. To this end they held a concert and dance recently to raise money for a well to be dug to supply water for a local stock tank. The tank has not operated due to lack of water.

A satisfactory sum was raised and it is hoped to add more in order to have a well dug.

### Vermilion Sells New Salaries

VERMILION—A new salary schedule for 1944-45 which will pay normal rates \$800 annually was drawn up recently by A.T.A. representatives of the teaching staff and the Vermilion Division school board.

Basic salary for the teachers of one-room school will be \$800 a year but to this will be added 300 cost-of-living bonus. Pay for experienced teachers will be adjusted upward from \$800 to the rate of \$900 a year for each of the first three years of experience and \$300 a year for each of the following six years.

Teachers and principals of two and three and four-room schools will have basic salaries ranging from \$1,000 to \$1,500. To these basic salaries will be added the 300 cost-of-living bonus and increases for past experience at the same rate as for one-room school teachers.

Principals will be granted \$500 a year for supervision and \$100 for a university degree.

Maximum salaries according to the schedule will vary from \$1,200 to \$1,500.

The payroll of the 100 teachers in the division will be boosted by \$15,000 and will bring salaries well above those set by the Vegreville arbitration award of last autumn.

Albert Linton were recent guests of Mrs. T. Malm at home. . . Mr. and Mrs. Denver C. Hart of Bassano are guests of Mr. and Mrs. Harry W. Smith of Fennor. . . Mrs. Grover Smith has left for a holiday with her parents Mr. and Mrs. Ross Edmonston.

### Council Studies Flood Protection

RED DEER—City Council paid a visit to the city pump house this week to investigate a plan proposed by public works foreman J. R. Jones to guard against flood damage.

At the time the town went out of the Red Deer River in April this year the water rose so high that the pumps were put out of action. Flood protection was fully discussed when the council met in the hall and it was decided to seal the brick walls of the pump house with waterproof cement. The windows in the building will be raised and a bulk-head made for the door. The bulk-head will be placed in position in the spring when danger of the ice breaking up approaches.

Beginning at the end of the month works for watering gardens and lawns will be from 9 p.m. to 10 p.m. instead of from 7 a.m. to 10 a.m. and 4 p.m. and 9 p.m. Users felt that the time allowed for the evening under the former schedule was not long enough and that there was more benefit from water used at night than in the morning. The regular hours for watering have been set by city council due to the fact that the pumping system is carrying a heavy load from higher water consumption and frequent washing of gutters.

The Red Deer Lions' club shipped a car of rubber salvage this week. Gordon Brown, chairman of the club's salvage committee, was in charge of loading, assisted by other club members. . . Citizens of Red Deer and district honored John H. Comfort, Clearview district farmer who is retiring, at a banquet in the Buffalo hotel this week. The affair was arranged by the Red Deer Board of Trade and E. A. Johnston, president of the board, presided. About 125 people were present.

EDMONTON—Officers elected at the annual meeting of the Red Cross were president, Albert Webber; treasurer, A. H. Johnson; secretary, Albert Shoben; chairman of war committee, Mrs. M. Mork. . . It is hoped that the recent heavy rains will destroy some of the cutworms which have been causing so much destruction. . . Mrs. A. H. Johnson and son were visitors to Edmonton. . . Alec Marlock was a recent visitor to Edmonton.

## Provincial Secretary Signs Premier's Certificate as Minister of the Crown

—Photo by Alfred B. Stuenkel

Alberta's new provincial secretary, Hon. Alfred B. Stuenkel, has been affixing his signature to "Letters Patent", certificates which announce the appointment of cabinet ministers. The letters patent, 14 by 20 inches in size, display the Great Seal of the Province, and the coat-of-arms. Mr. Stuenkel has 12 such documents to issue, and sign 10 of them himself. He issues one for every portfolio, and two go to Premier Ernest Manning. Hon. W. A. Fallow, minister of public works, and also minister of railways and

telephones, and to Hon. Solon Low, for the treasury and the ministry of education. Only one of Premier Manning's two certificates, that of the ministry of trade and industry, is signed by Mr. Stuenkel, and in the picture, it is this one which is being signed. The certificate of Mr. Manning's premiership is signed by Edmund Troubridge, deputy provincial secretary, as there was no provincial secretary when Mr. Manning was sworn in as premier. Mr. Troubridge also signs Mr. Stuenkel's certificate, which names the latter as Provincial Secretary.

### Gleaned From Rural News

KILLAM—Miss Elsie Mallet of Selby school was guest of honor at a shower held at the home of Mrs. Edward Buser. . . Mrs. Mary Hawley, Bellinham, Wash., is visiting her daughter. . . L.A.C. and Mrs. E. Powell are visiting Mr. and Mrs. J. Caldwell. . . Miss Eunice Frewing, Portland, Ore., is visiting her father, A. Frewing. . . Mrs. Ruby Faulkner of McGrath is visiting her parents Mr. and Mrs. J. Edwards. . . Miss Rosie Bohaychuk, Innisfree, is the guest of her sister, Mrs. W. Webb. . . Miss Lily Cooper, Berwyn, was the guest of Mrs. W. Fair and Mrs. J. Grant. . . Recently, Miss Lavina Danielson was guest of honor at a shower at the home of Mrs. H. Oshak. The gifts were presented by Mavis Oshak and Alan Oshak.

MORRIS—Mrs. E. Combs and family of Edmonton are guests of Mrs. B. Fell. . . Mrs. J. E. Brown, Edmonton, is visiting friends here.

LUSCAR—Mrs. J. P. Bush is a visitor to Edmonton.

The sum of \$24 was raised by the Grimshaw United Church L.A. at a sale of doughnuts. . . Five teams played in a school softball tournament in Grimshaw with Lac Cardinal school winning from Grimshaw 12-1. . . Fairview Air Cadets played a baseball game with the Grimshaw high school team beating the latter team 5-3.

Most suicides occur at night, according to records.

### Debunker

WOMEN DO NOT TALK MORE THAN MEN

According to Psychologist Albert E. Wiggman, men do more talking than women and are naturally more talkative than they. He says men like to hear themselves talk more than women think that what they say is more important than what women say. And, strange to say, he is attributed to the impression many men give women that they are the inferior sex and are not as intelligent in conversation as their male companions. Be the reason what it may, it is generally agreed among psychologists that men do more talking than women, and I think we have something here.

With Those In-Laws

KILLAM—Lain, Freda Smith is at home from Eastern Canada visiting her father, H. Smith. . . L.A.C. Gene Margan has arrived safely overseas according to word received by his parents. . . A.W. Emma Anderson of Clearbrook visited her parents Mr. and Mrs. L. Anderson. . . Prior to leaving to join the R.C.A.F. at Calgary, Billy Dunham was honored by the Soldiers' Gift Committee and the Hockey Club at Pte. Gordon Fee has measles at home.

ATHABASCA—Prior to leaving for Ottawa where he will train as a sub-lieutenant in the R.C.N.V.R. Trevor F. Davis, B.A., L.L.B., spent a short time with his family. He was formerly in charge of the law office of his brother, P. G. Davis, K.C., and former M.P. for Athabasca.

GLENDON—On leave here were Pte. Wayne Lammi of the 3rd Bn. A.F. at Calgary, Billy Dunham, Pte. Phil Konashewsky of No. 133, C.A.C., and Pte. William P. Laddish of the T.S.B. Reinforcements, Bedford, N.S. and Pte. Steve

### W. Woodman Is Guest of Honor

DUFFIELD—In honor of W. H. Woodman on the occasion of his 75th birthday anniversary, his daughter Mrs. C. W. Isen entertained at a party. Present were Kathleen Cameron, Walter Ross, Edna Joan and Bud Tyrell, Ed. Isen, Joan and Mrs. Hargreaves Greenough, Mrs. Fred Greenough, Mrs. Mary Jane Greenough and Mr. and Mrs. Walter Hearn.

Mr. and Mrs. C. W. Stewart, Leslie and Constance Isen, Walter Ross and Clifford Coleman attended the graduation exercises at Stony Plain high school Pearl Isen was among the graduates. Mrs. Don Savard the former Miss Jennie Burton was guest of honor at a recent shower held at the home of Mr. and Mrs. George Schindman. . . Many gardens in the district have suffered from frost. Seeding is nearly completed.

Bodnar, Prince George, B.C. . . Walter Lukian has gone to Edmonton where he will train at H.M.C.S. Nonuch, R.C.N.V.R.

### Minute Make-Ups

Do your eyebrows grow in the wrong direction? Just a minute then for this Hollywood trick. When your makeup is finished, smooth on a little colorless mastic wax and the unruly eye brows fall into line. If you have been using soap to make them lie, have stop! Because it may prove irritating to the skin.

About 100 new species of fishes are discovered annually.

## Points for Parents

By EDYTH THOMAS WALLACE

Mother: "Go outdoors and play, Daughter, and quit thinking of yesterday's troubles. We've talked it over and you've done all you can to make up for it. Now we'll both forget it."

Feelings of guilt which are often a by-product of wrong-doing, may be more destructive to a child's mental well-being than was the undesirable behavior itself.

Daughter: "I keep thinking about what I did yesterday. Mother: 'I'm glad you're not forgetting it so soon. It will do you good to feel ashamed of yourself for awhile.'"

## Legion Protests Eviction of Servicemen's Dependents

### Claim 'Greedy' Landlords Working Racket in City, Slum Conditions Growing

Strong protest against evictions of dependents of men serving in Canada's armed forces, by Edmonton landlords and suggestion that the city build small apartment courts to house families now under notice to vacate, were contained in resolutions passed at the regular monthly meeting of Edmonton Branch No. 24 of the Canadian Legion held in the Memorial Hall Thursday.

### London Official To Speak in City

G. R. Paterson, Canadian animal products commissioner, London, will be the guest speaker at a meeting of the agricultural division of the Edmonton Chamber of Commerce next Tuesday at 2:15 in the Macdonald hotel.

### Discuss Post-War Development of Pacific North West

This group of officials, comprised of government representatives of Alberta and British Columbia, and railway colonization officials, has just concluded meetings in Edmonton, at which plans were discussed for post-war development of the Pacific North West. The group prepared an illustrated map which is to be distributed to those interested in the northwest with the cooperation of American civil and military authorities. In the picture, from left to right, are: C. A. Buchanan, district superintendent, department of immigration and colonization, Canadian Pacific Railway, Edmonton; N. S. McGuire, district superintendent, department of colonization and agriculture, Canadian National Railway, Edmonton; E. C. Rowbottom, deputy minister, trade and industry, province of British Columbia; Premier Ernest Manning, Alberta's minister of trade and industry, whose department is directly connected with the plans; W. D. King, deputy minister of trade and industry for Alberta; and E. H. Gurton, western superintendent, department of colonization and agriculture, Canadian National Railway, Winnipeg. (See story on Page 17).

### Enthusiastic City Gardener Already Enjoying Fresh Peas

While most Edmonton amateur gardeners are dreaming of a day, not too far distant, and providing the birds are willing, when they'll pick fresh green peas out of their gardens, C. H. Mason, 10972 123 street, already is picking quite substantial pods out of his garden and to prove it brought one into the Edmonton Bulletin office Friday. It wasn't a stumpy little pod

either it was a healthy looking one three and a half inches long, and containing seven peas. The peas, Mr. Mason explained, were sown in a cold frame March 21 and later transplanted. They are of the variety known as Laxton Progress and Mr. Mason has a row 25 feet long.

As for the birds who have grown fat and flourishing on the tender young shoots in most people's gardens Mr. Mason has them beaten to a handful.

He places two boards, cut occasionally, in the ground at each end of the row, hammers in lack all across the top of each and then stretches black thread closely from end to end. In this way pea-eating birds can see the plants but not the thread and will swallow towards their goal things them up as smartly as they decide the game isn't worth the candle and move on.

Mr. Mason has had spinach and cress for the last three weeks and his head lettuce is just about ready.

Members of the Rotary club are arranging a suitable program which they will, take to St. Albert on Thursday, June 24. Members will meet at the Macdonald hotel between 5:15 and 5:30 p.m. and will journey by auto. About 15 carloads of members expect to make the trip, it was stated.

### Child Is Admitted To City Hospital

Emily Doyle, four years old, of Rocky Rapids, was admitted at 4:10 p.m. Thursday in General hospital. One of the little girl's fingers was missing, while a second was hanging.

It appears that she and her brother had been using an axe in the wood, and in some manner the axe slipped, taking off one finger and badly cutting the other.

Her condition Friday morning was described as good.

A meeting of the property committee of the Edmonton school board will be held in the board room of the City hall on Wednesday, June 21 at 8 p.m. The meeting will be followed by a meeting of the board.

### Johnstone Walker Limited

## Young Cyclist Hurt by Truck, Driver Charged

William Lindsay, 16 years old, of 10218 117 street, was injured Thursday when he was struck by a truck at 117 street and 104 avenue, thrown in front of the vehicle, and dragged, with his bicycle about 90 feet, to the intersection of 104 avenue and 117 street. Driver of the truck was Andrew Pfeiffer, 2000 46 street, who was placed under arrest and charged with dangerous driving.

Two witnesses, Alex Kreen, 11248 306 avenue, and Pat McKee, 10248 313 street, told authorities that the truck had dragged the boy across the intersection. The boy was taken to his home nearby.

## Getting Around

Continued from Page Eleven  
years of experience in welfare matters prior to the war.

Morale is one of the vital problems of the Red Cross recreation and welfare workers. Each welfare worker and recreation manager is carefully selected. The background and temperament of each individual is studied at length, while the character of each is also carefully investigated.

When a man or woman is finally selected he or she is sent to Washington, D.C., for a short course. Then, and only then, are assignments to field stations made.

One of the most interesting features of the recreation services is that recreation of any given kind is never forced on a service man or service woman. The Chicago man explained it this way: "Do you know that lots of young fellows would rather watch a dance and listen to the music than dance? To force such a fellow to dance is to risk making him sore and when he gets sore his morale is lowered. It required years of scientific study to learn that some wall flowers actually are of themselves better as wallflowers."

"Some fellows just want to loaf, or keep in the chains when they're at a recreation center. Always their hearts are in the right place, a lot of untrained recreation workers consider that any fellow not dancing or playing games of some sort is unhappy."

This is certainly not the case. If a fellow wants to loaf we encourage him to loaf. The mistake of forcing recreation on young people is one often made by elderly volunteer recreation workers. As we said before their hearts are certainly in the right place but their methods don't get good results."

The American Red Cross supplies doughnuts and coffee free of charge at their snack bar.

"Lots of fellows returning from furlough are broke, so that's where the doughnuts and coffee come in mighty handy," he explained.

Dancing is also free to service men and service women. The female recreation workers are all young and pretty even on young eyes.

The proof of the pudding is the eating. And the American Red Cross is packed to the doors every evening.

## Paralysis Victim

DUNCAN, B.C. June 18.—(CP)—Benjamin Lovell, 32, of nearby Shawinigan Lake, died in hospital here yesterday despite a 24-hour struggle by volunteers to keep him alive through artificial respiration. Paralysis of the diaphragm made the treatment nearly useless, said "Doc Long" was available.

## Daily War Map—Exclusively in The Edmonton Bulletin

The accompanying map shows the eastern end of the Mediterranean, the Levant States Syria, Latakia and Lebanon, whose boundaries with Turkey have been closed. Allied forces are gathered in Syria, Iraq and Iran, and supplied through the Suez Canal and the Gulf of Persia. It is known that considerable strength has been massed on the island of Cyprus, where large-scale invasion exercises have recently been carried out. It is possible that attempts will shortly be made to gain possession of the Islands of Rhodes and Crete, which guard the approaches to the Aegean Sea.

## Legion Makes Protest Over Home Evictions

Continued from Page Eleven

demning further evictions by landlords of families of any co-operation for the duration of the war.

"I am sorry to report we lost a court case this afternoon, that is being fought by the Legion solicitor on behalf of a soldier's dependent. The court ordered the eviction of the family. A previous case had been won, he explained.

"The court took the attitude the woman tenant was not looking after her house properly, although she had been occupying it for nine years," he said.

## SEES NO RELIEF

"If a case where one woman, with three small children, live in a room 9 feet by 9 feet," Mr. MacDonald continued. "The federal housing scheme for the duration of the war does not provide relief, because these houses will rent for \$40 and \$50 a month, and the poor families cannot afford them."

"The president of the Legion declared that most of the trouble is caused by a short-sighted policy concerning the housing of the war veterans. Mr. MacDonald said that the federal government, Mr. Williams read excerpts from newspapers and magazines dealing with the Edmonton housing situation.

"One case mentioned six persons living in one room. In another case, eight were sharing a single room. In a third case, a woman with a small child was sharing a single room with no running water."

"Down in the flats, where I live children, can't be converted into living quarters, to be rented for \$18 a month. The Legion must see that women with husbands overseas are protected," he concluded.

Ald. Sidney Bowett, said he did not think any resolution could be strong under the circumstances. No soldier's wife should be placed in a deplorable situation, he declared.

## PLAN MASS MEETING

If a mass meeting is called it will be held this coming Sunday.

"There is a great racket flourishing in Edmonton now by greedy landlords buying up houses, evicting the tenants, and after slight remodeling, renting again at greatly increased rents," another member said.

Percy Gwynne suggested the matter be placed directly on the docket of the federal government by having a delegation of soldiers' dependents in military barracks, recently vacated here.

Trent H. E. Tanner said he thought the Legion should go on record by a membership assertion that no person has a right to buy houses on speculation, evict the tenants and then rent at greatly increased rents while the war continues.

## Art Club Members Guests of Rotary

Members of the Edmonton Rotary Art club were guests of Edmonton Rotary at a luncheon held on the Macdonald hotel Thursday noon.

They were Miss Jean Watson, president of the club; Miss Elva Pearson, Miss Maxine Cinnamon and Miss Mary Lou Orendorff.

Miss Watson, who made the introduction, referred to the beginning of the Junior Art club in Edmonton, saying the idea behind the movement was to create original works of art.

Miss Pearson, a student of Westgate High school, spoke on "Portraits," and said how to pick a subject, how to go about sketching it on paper. She offered her listeners the privilege of having her portraits done at any time.

The cultural value of arts to young people was explained by Miss Cinnamon. Encouragement was what counted in making artists here in Canada, she said. A student of Victoria high school, she said many public indifference discouraged works of art.

Miss Orendorff, a university student, explained the points of interest in the display of pictures on exhibition here, telling how they were produced.

Canada by the U.S. government. "Any man not accepted for service in the army of the U.S. by the date his papers are mailed to the U.S. is liable to be drafted into the Canadian army by the Canadian authorities."

Military call-up notices also are being sent to allied allies who have the right of election of service in their own national army or in the Canadian army. Neutral allies also are receiving the notices.

## Warn on Licenses

R.C.M.P. authorities issue a warning that people from other provinces and the United States now working out of Edmonton or who are residents here, must procure Alberta car and driver's licenses before operating motor vehicles.

## Two Saskatchewan Officers Win D.F.C.

OTTAWA, June 18.—(CP)—R.C.A.F. headquarters late yesterday announced award of the Distinguished Flying Cross to two Saskatchewan officers serving overseas—Flying Officer Leslie Cyril Gosling of North Battleford, and Flying Officer Wilfred Lloyd Dobson of Kamloops.

## Four R.C.A.F. Men Joining Air Crews

Four airmen, previously held in desk positions in the Edmonton recruiting centre despite their desire to fly, have now achieved their ambition because they were released for aircrew duties by the posting of airmen in the recruiting centre.

George Wilkins, for two years approach desk clerk at the recruiting office, welcomed thousands of prospective flyers into the air force as was Pilot Officer Al Brown, an administrative clerk in charge of central registry at the centre was recently commissioned as a pilot officer wireless operator air gunner, as was Pilot Officer Al Brown, who for more than a year, was responsible for filing the documents of all Edmonton and district men who applied for air force service. Pilot Officer Brown received his wings at Dauphin, Man. last week and was advised by air force headquarters that he had been granted a commission on Wednesday.

The fourth in the group, LAC. Andy McNeil, is finishing his solo training at the elementary flying school at High River, Andy, formerly a medical clerk at the centre, has been granted "wings" and possibly a commission.

Other men now grounded can be released for aircrew duties as soon as sufficient airmen are available to replace them. Officers out of that recruiting centre pointed out that there are unlimited openings for aircrew in the air force.

## Younger Business Men Name Officers

At a meeting held at the Y.M.C.A. Wednesday evening a service club for younger business men was organized to be known as the Y's Men's Club. Max Dewar, assistant city architect, was elected to the office of president. Ralph LeDrew, first vice-president; Harold Sprague, second vice-president; Ken Hilbert, secretary; and Henry Henshaw, treasurer.

The Y's Men's Club idea is international, having more than 4,000 Y's men in 17 countries in all six continents. The operation of this new club will be based around Fellowship, Education and Service. The movement was organized in Toledo, Ohio, in 1920 and at the present time the International President is Hugh Chancer of Macanville, Iowa. It is expected that the charter will be presented to the local club some time in September.

## Air Force Plans Series of Shows

The "Air Force Show" recently seen in Edmonton proved so popular that the R.C.A.F. plan to operate several similar units throughout Canada.

Talented amateurs and young professional entertainers are now being enlisted by the R.C.A.F. to serve with entertainment units in the various training commands.

There are many openings for good female singers.

There are many openings for a good soprano voice, with or without microphone; they should be willing to learn dance routines and be capable of speaking lines. It was also pointed out that the air force is looking for young versatile artists as comedians.

Special dancing acts, single, two men or boy and girl, are required as well as script writers. These latter should be accomplished in writing scripts for theatre productions. Present plans do not call for radio script writers but it is anticipated that there will be a call for them at a later date.

No entertainment unit can operate successfully without stage managers. Persons with professional experience with lighting, stage-setting and other stage duties are required.

## War on Licenses

George Wilkins, for two years approach desk clerk at the recruiting office, welcomed thousands of prospective flyers into the air force as was Pilot Officer Al Brown, an administrative clerk in charge of central registry at the centre was recently commissioned as a pilot officer wireless operator air gunner, as was Pilot Officer Al Brown, who for more than a year, was responsible for filing the documents of all Edmonton and district men who applied for air force service. Pilot Officer Brown received his wings at Dauphin, Man. last week and was advised by air force headquarters that he had been granted a commission on Wednesday.

The fourth in the group, LAC. Andy McNeil, is finishing his solo training at the elementary flying school at High River. Andy, formerly a medical clerk at the centre, has been granted "wings" and possibly a commission.

Other men now grounded can be released for aircrew duties as soon as sufficient airmen are available to replace them. Officers out of that recruiting centre pointed out that there are unlimited openings for aircrew in the air force.

## Two Saskatchewan Officers Win D.F.C.

OTTAWA, June 18.—(CP)—R.C.A.F. headquarters late yesterday announced award of the Distinguished Flying Cross to two Saskatchewan officers serving overseas—Flying Officer Leslie Cyril Gosling of North Battleford, and Flying Officer Wilfred Lloyd Dobson of Kamloops.

## Father Is Fined For Aiding Son To Evade Service

CALGARY, June 18.—(CP)—Charged with aiding his son to evade Selective Service, national mobilization regulations, John Vlatko, Calgary, was found guilty in city police court yesterday and fined \$50 and costs or 30 days.

The son, Maurice Vlatko, known as "Mushy Callahan," local lighter, pleaded not guilty to a charge of failing to report for military examination after he had been ordered to do so by the divisional registrar. He was found guilty and remanded for one week for sentencing.

All inquiries should be made to No. 2 Recruiting Centre, R.C.A.F., Provincial Building, Edmonton. Applicants will be given an audition by a qualified officer assigned to this duty by air force headquarters.

## Legion Makes Protest Over Home Evictions

Continued from Page Eleven  
demning further evictions by landlords of families of any co-operation for the duration of the war.

"I am sorry to report we lost a court case this afternoon, that is being fought by the Legion solicitor on behalf of a soldier's dependent. The court ordered the eviction of the family. A previous case had been won, he explained.

"The court took the attitude the woman tenant was not looking after her house properly, although she had been occupying it for nine years," he said.

## SEES NO RELIEF

"If a case where one woman, with three small children, live in a room 9 feet by 9 feet," Mr. MacDonald continued. "The federal housing scheme for the duration of the war does not provide relief, because these houses will rent for \$40 and \$50 a month, and the poor families cannot afford them."

## Merchant Navy Will Be Aided With Tag Day

Production of Canada's war factories, the food produced on Canadian farms and all the munitions of war from this country are carried on ships manned by men of the Merchant Navy.

Without their valiant work the battles for democracy could not have been fought. These men of the Merchant Navy brave submarine-infested seas, the bitter cold of Arctic weather, and all the perils of the sea to keep the supply lines of the Allies flowing.

On Saturday Edmontonians will be asked to contribute to the funds of the Navy League of Canada to provide comforts for the men of the Merchant Navy. These funds

Will be utilized to purchase wool from which sweaters, scarfs, and other woollen goods will be made. It will be utilized to make up ditty bags for distribution amongst the men of the Merchant Navy and in the upkeep of hostels at the different east and west ports for their comforts.

Women of many Edmonton organizations are volunteering their services to tag on city streets on Saturday, and an appeal is made for generous support of this tag day so that Edmonton may contribute its share to the welfare of the

**CADETS PARADE**  
Friday at 7.30 p.m. members of the Edmonton Sea Cadets will parade from the naval barracks. The route of their march will be from

the barracks along 97 avenue to 109 street and then north to Jasper avenue. From that point the parade will swing east to 100 street and then south to McDougall hill to return to the barracks. Saturday morning a detachment of the Royal Canadian Naval Volunteer Reserve will parade in support of the tag day. Sunday morning members of the navy stationed in Edmonton will hold a church parade at Christ church.

## Canines Join Canadian Army to Master Commando Tactics

The Canadian Army's newest recruits are four dogs of mixed breed who are learning to use their fangs for guard duty. The dogs will grab an intruder and pin him down until help arrives. Inset shows Lou Al Foster, a well-known dog trainer, who is teaching the canines commando tactics.

Four of the newest recruits in Canada's Army are youngsters of 15 to 18 months, averaging about 65 pounds in weight and from two feet to 18 inches in height, answering to the names of Privates Buster, Ping, Rex and Postum. Altogether they form a sort of canine United Nations. Rex is an even mixture of husky and collie. Buster is half Labrador retriever and half sheltie. Ping is 50 per cent collie and 50 per cent chow. Postum, who looks like an albatross, claims that his place in Dogdom's nationality is a military secret.

Training for guard duty with the Army, the four dogs are undergoing a four-week course in canine commando tactics. They are learning to be suspicious of everyone except their keepers, four members of the R.C.A.F. Pic. E. M. Brenas of Ottawa has teamed up with Rex. Pic. A. Dennis of New Brunswick with Buster. Pic. T. W. Jones of Winnipeg with Ping, and Pic. J. G. McIntyre of New Brunswick with Postum.

The dogs are learning to attack an intruder by seizing his arm and pulling him down. As an

intruder wears a heavy two-inch thick pad from his shoulder to his finger tips for the job. When he approaches, the dogs are supposed to leap upon him and get a good hold on the padding. They all respond in the approved manner except Buster, who takes a bite at the padding and then tries to sink his teeth into the instructor's ankle. According to the trainer this is a neat trick that Buster himself developed—but it's a little tough on the instructor.

Meals for the dogs consist of three pounds of cooked meat for every 25 pounds they weigh. They are given one serving a day. They are fed, groomed and taken on their patrols by only one man.

The presence of a second person anywhere within their sight will meet with a hot reception. The dogs are trained to respond to verbal commands and gestures. They are never struck nor whipped even though in the early days of their training they disobey orders.

Nature has given them thick heavy coats, ideal equipment for duty during cold winters.

## Take-Off

Alexis Smith prepares for a "take-off" from a springboard. No publicity shot this, for Alexis is an accomplished diver and swimmer among her other talents. Because of her outstanding performance in "Gentleman Jim," Warner Bros. has given her a star rating.

## Jiva-Diva

When Dinah Shore steps in front of a microphone to sing, she kicks off her shoes, crosses her fingers, closes her eyes and "gives." Naturally this procedure was taboo for the screen. It hasn't cramped her style, however, nor has it lowered the high voltage of her voice or personality. She came to Hollywood for the Eddie Cantor broadcast and remained to appear in Warner Bros. "Thank Your Lucky Stars," in which Eddie Cantor is starred. Others in the cast are Ann Sheridan, Errol Flynn, Dennis Morgan, Joan Leslie and many others.

## In Path of Invasion

Mined and barricaded with barbed wire, this street in a French channel coast resort town is ready for an invasion onslaught. Goebbels' propaganda says. (Picture obtained from neutral sources, radioed from Stockholm, Sweden.)

## R.C.A.F. Crew Reports on U-Boat Attack

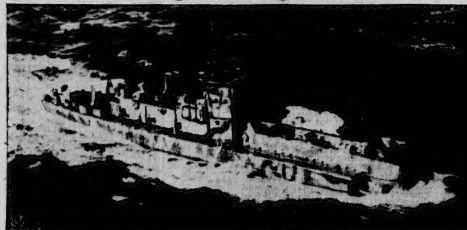

PL 16701. "Depth charges landed on the port side of the U-boat, ahead of and behind the conning tower. Another was dropped to starboard just behind the conning tower. . . . There was some debris and almost immediately an oil slick began to appear." That's the story being told by the crew of an R.C.A.F. Canoe flying boat, after a submarine attack off the east coast, as they report to the intelligence officer on their return. Standing, left to right, are Cpl. H. Kneelson of Bladworth, Sask., second engineer; Sgt. William Redwell, Marchwell, Sask., first engineer; Flying Officer J. D. Hooper, second pilot, Peterboro, Ont. Seated at left are Warrant Officer Charles Spence, wireless operator, Montreal, and Flight Sgt. Lyndon Hunt, navigator, of Fort William and Sarnia. At right are Squadron Leader Barry Moffitt, A.F.C., Toronto, and Simcoe, Ont., the captain, and Flying Officer E. N. Nicholl of Winnipeg, intelligence officer.

## Nazi U-Boat Crews Fear These Boys

PL 15823. These Royal Canadian Air Force fliers are the fellows Nazi U-boat crews fear. The crew of a Canadian Coastal Command Wellington bomber in Britain, they are (left to right): Pilot Officer Al Talton, of Grand Manan, N.B.; Pilot Officer Nick Tuckie, of Chatham, Ont.; Flight Sergeant Al Johnston, of Birds Hill, Man.; Flight Sergeant Tommy Main, of Victoria, B.C.; Flying Officer Bev Pritchard of Chatham, Ont., the skipper; and Flying Officer Ron Finlayson, navigator from Vernon, B.C.

## Heading For the Big Blow-Off?

This new-type, troop-carrying invasion barge will play a leading role when the Allies invade Hitler's "Fortress Europa." Operating under the U.S. Navy Amphibious Force and manned by Navy and Coast Guard personnel, it is pictured in practice run off the Atlantic Coast.

## Better Look Out, Fritz!

A German patrol walks its beat before the camouflaged entrance to Axis fortifications along the Atlantic Wall, on the alert for saboteurs—and the feared Allied invasion forces. Photo, one of series Nazis issued touting "impregnable" defences, was published in Germany, received in U.S. through a neutral source.

## Down on the Farm in China

Women and children do the farming in China today while their menfolk fight Japs. The odd-looking water buffalo is a convenient means of transport for these four Chinese youngsters headed home from a day in the fields. Chinese "farmette" at right holds up a handful of lettuce.

## More Canadian Wheat For Greece

Canada has sent five million bushels of wheat to feed starving Greeks suffering under the Nazi occupation. The grain is sent on neutral Swedish ships and the shipment is arranged by the Greek War Relief Organization. Grouped around the five millionth bushel of grain are Captain Nilsson of the Swedish ship Tamara; Greek minister to Canada, Hon. G. S. Deputas; director of the Greek War Relief Organization, Thomas Pafas, and Canadian minister of trade and commerce, Hon. James A. Mackintosh. The men in traditional white costumes standing behind the group around the hatch are members of the Evzones, crack Greek military unit. The Tamara sailed from St. John, New Brunswick, and the mayor of the city, C. R. Watson; Swedish Consul General to Canada, Per Wikman, and other dignitaries were present.

# Women Won't Talk

By RENE RYERSON MART

THE STORY: Derek Grady has been found murdered on the grounds of a house. The police are looking for a man wanted for kidnapping. Mrs. Grady, who was the victim, is being questioned. She is a woman of about 40 years of age and is a native of the United States. She is a widow and has two children. She is a very nice woman and is very cooperative with the police. She is a very nice woman and is very cooperative with the police.

CHAPTER X  
THE living room at Kraitkroft was an immense affair. A huge stone fireplace filled one wall. Facing it was a deep cushioned divan of equally exaggerated proportions. The rug is thick and red. The walls are paneled with dark wood. The ceiling is high and the beams of the same beautiful wood arch the ceiling. Painted tables and baronial oil chairs reflect the shaded light like so many amber mirrors.

Deputy Shaw was standing before the fireplace looking at a small, round, and movable as the stone lined back of him. Connie, small and fragile, sat in one corner of the big divan, her lip-tucked mouth a red line in the whiteness of her face. Kathy was poised dramatically on the arm of one of the high-backed chairs. Walter was angrily pacing the length of the room.

"They all turned to look at me and Kathy asked impudently if I didn't expect to catch cold running around at that time of night without a coat on. I don't think they really noticed that Mattison was with me."

Deputy Shaw nodded brusquely in my direction.  
"Mrs. Kraik, I've been trying to make your son understand why we have to question your family and servants again. There doesn't seem to have been anybody around."

**HOLD EVERYTHING**

The deputy didn't follow up his lead. He closed his notebook and very deliberately put it back in his pocket. I breathed easier. Then he looked at me and Connie and again at Kathy. His eyes remained on her face while he lit a cigarette.  
"There was the tiniest drab before Kathy answered that one."  
"No," she said shortly.  
The expression on Shaw's face changed, and I knew that Kathy had made a mistake.

**LAFF-A-DAY**

"An ex-shoe salesman was the closest thing to a blacksmith's helper I could get!"

**CURIOS WORLD**

west out to see him. Now which one was it?  
"I don't know," he said. "I didn't dare look at Kathy."  
"All right," Shaw snapped finally. "I don't know either. I'll give you a chance to tell about it now. But if this is the way you want it, I'll be interrupted by a knock on the hall door. Quickly, as if it were a signal for which he had been waiting. Shaw crossed the room and opened it. I saw another deputy in the hall. Shaw went out and closed the door carefully.  
A few minutes later he walked back in. In his hand he held a woman's silver sash. It had no fastener.  
He dangled it before our fascinated eyes, and his voice was smoothly sarcastic. "Does this pretty thing belong to one of you, by any chance?"  
Connie's pink tongue darted along her lips. "It's mine," she said faintly.  
Shaw took an object from his pocket and fitted it to the sash.  
"To be continued."

**McCooy Health Service**

Due to the inability of readers to obtain the various foods suggested in the weekly menu which have been appearing in this column each Friday, it has been decided to discontinue the printing of these menus for the duration, or until normalcy returns to the food situation.

However, readers are invited to send in their suggestions for food and food combinations, which will help to provide good wholesome and nutritious meals with the foods available.

**PROTEIN NEEDED**  
In your diet, you need a suitable amount of the various elements in order to maintain life, and repair and build up tissue. These elements are combined in different proportions and arrangements in the food suitable for use by the animal organism. One of these arrangements is a complicated combination of nitrogen, carbon, oxygen, hydrogen and sulphur, no grouped in a form we designate by the name of protein. The principal foods containing this special grouping of elements are meats, fish, cereals, fish, oil, eggs and the entire whole of the animal kingdom.

The largest amount of protein found without mixture with other food elements is that in the flesh of animals. Of course all organic life is made up of protein, and a varying amount of these protein compounds, but their mixture with other elements often renders them unsuitable for the best use by the digestive system of man and the animals.

The animals that obtain their protein from the grains are forced to use also too large an amount of starch in combination, in order to secure a sufficient amount of protein for their needs. They are therefore, made sluggish because of the excessive amount of starch they are forced to use in order to get enough protein.

Animal life or human life could not long exist if denied this indispensable protein material which is needed for cell growth and repair. Many experiments have been made by scientists to prove the truth of this statement.

In the ordinary mixed diet, no fear need be felt that not enough food containing protein will be used. About a quarter of a pound of meat daily will supply the average person with enough protein. The fault is that its mixture with other food stuffs is such as to make its proper digestion and assimilation difficult.

The usual course dinner often contains so many different proteins that three or four times as much is eaten as the body could possibly use. In one day, no matter how large the body, or how active.

The urgent need is for everyone to learn how much of this kind of food the body can use, and how it should be combined with other foods to repair and build cell structure. This does not have to be measured in grams, for the use of too large a quantity. Nature is not so exacting in matters of diet, but allows for reasonable deviations from an approximate quantity.

The average person doing hard muscular work or taking a proportionate amount of physical culture exercises may with safety use as much protein in one day as that contained in two eggs and about a quarter of a pound of lean meat. In some cases, a half pound of lean meat may be used without harm if the physical exercise is quite vigorous.

It must be remembered that children in particular need protein as there is a need for this important substance not only to repair worn-out tissue but also to provide the extra material needed in growth, where extra tissue is added. Be sure that your growing child obtains sufficient protein.

When there is a strong ethical objection to the use of flesh foods, then milk or whole grains may be substituted by those with strong digestions. Nevertheless, I have found that the most satisfactory results may be expected if the easily digested flesh foods are depended upon to provide the proteins, leaving more vital energy for other functional needs.

All questions regarding health and diet will be answered. Large, stamped, self-addressed envelope must be enclosed. Write to address of paper only. Letters must not exceed 150 words.

McCooy Health Service, The McCooy Building, 1151 West 8th Street, Los Angeles, Calif.
